

AI Kick-In 5th of November

This is a Kick In to the AI Readiness project, a collaboration between Science Park, JTH and JIBS. This event will provide a valuable overview of the AI projects you'll engage in during upcoming courses.

We start the day with a lunch followed by some information and inspiration from Science Park Jönköping and the researchers in your programs.

Together we will also engage in an Impact Lab, which is led by business developers from Science Park. During

the Impact Lab you will get to develop your creative skills from ideation to solution.

This day is in your schedules, so you don't have to register before. However, please contact

lovisa.schedin@sciencepark.se

if you have any allergies.
(Everything is vegetarian!)

Date: 5th of November

Time: 12.00 - 15.00

Place: Science Park Towers 2nd floor
